The following disclosures have been made by planners and content reviewers:
Bohrn, Michael (Committee Member) : Nothing to disclose
Rice, Bob (Activity Director) : Nothing to disclose

Objectives:
At the conclusion of this presentation, participants should be able to:
1 Synthesize a multidiaciplinary, patient oriented treatment plan for lung cancer patients.
2 Analyze clinical presentations and utilize diagnostic tools to formulate clinical staging prior to treatment initiation.
3 Improve the quality and safety of patients to optimize mortality rates and treatment outcomes
4 Assess emerging data/technical information regarding changes and progress in treatment of patients based on research and outcomes
